

Windows 10 – New Microsoft “Edge” Browser

Recent technology update for those End Users authorized to remote access their work PC from home:

After inquiring with the Department of Technology and Information (DTI), Windows 10 is currently NOT supported with Remote Desktop Access. There is a known issue with the new Microsoft Edge browser and SSL/VPN. You must use Internet Explorer to access SSL/VPN (<https://access.delaware.gov>). DTI has not given a timeframe on when Windows 10 and the Edge browser will be supported.
